NATIONAL DISTRICT
TELEGRAPH COMPANY

1916-1921, 1930-1931

JAN 5 - 3 PM

FORM 41A

CENTRAL STATION
MANUAL FIRE ALARM AND NIGHT WATCHMAN'S SIGNAL BOX SERVICE CONTRACT.

Memorandum of Agreement, Made this 4th day of January, 1916, between the NATIONAL DISTRICT TELEGRAPH COMPANY (N.Y.), hereinafter called the "Contractor", and THE AMERICAN NUMISMATIC SOCIETY, hereinafter called the "Subscriber";

WITNESSETH:

That for the consideration hereinafter named, the Contractor agrees to install, or cause to be installed in the premises of the Subscriber at W.156th St.bet.Broadway&Riverside Drive, in the City of New York, State of New York, a Manual Night Watch and Fire Alarm Signal System, including three (3) Box es and the wire connections necessary to transmit signals to the Contractor's Central Station, and will, without liability and not as insurer, operate such system with the understanding that the entire system and all devices shall remain the sole property of the Contractor.

1 of above signal boxes to be used as "Police Signal" Station.

The Contractor agrees, on any failure or neglect of the watchman to signal the Central Station hourly commencing at Six o'clock P. M. and ending at Six o'clock A. M., within fifteen minutes after the time or times stated by the Subscriber in writing that such signals shall be sent, to send its roundsman, at a cost to the Subscriber of fifty cents for each trip, to the Subscriber's premises to ascertain the cause of such failure or neglect, and in case of accident to or disability of the watchman to perform his duties, to hold a watchman on the premises temporarily as may seem necessary, at a cost to the Subscriber of thirty cents per hour, and to furnish the Subscriber daily a report of any failure to signal and watchman's excuse therefor for the previous night.

The Subscriber hereby agrees to pay the Contractor, its agents or assigns, ~~the sum of~~ ~~Dollars ($)~~ upon the completion of the night watch and fire alarm system, and to pay in addition as rent for operating such system the sum of One hundred eight and 00/100 Dollars ($ 108.00)

per annum in advance for the period of five years from the date such system is first operative, and thereafter until one year's notice shall have been given in writing by either party to the other of its desire to terminate this contract.

The Subscriber hereby authorizes and empowers said Contractor, its agents or assigns, to install the system in said premises and to make inspections, tests and repairs to it, and further, to make any alterations after installation at the cost of the Subscriber, and to remove said apparatus and connections upon the termination of this agreement by lapse of time, default in the payment of any installment of rent, or otherwise, but the removal of the apparatus and devices aforesaid shall not be held to constitute a waiver of the rights of said Contractor to collect any rentals or charges which may have accrued under this agreement.

The Contractor assumes no liability for delays in installation resulting from strikes or other causes, and this contract is not binding unless approved in writing by an executive officer of the Company described above as the "Contractor."

There are no verbal understandings changing or modifying any of the terms of this contract.

New York.

Gentlemen:-

Commencing May 17th and 18th and continuing until further notice our watchman will put in the last ring at 5 A. M., consequently the first ring will be at 6 o'clock in the evening and finish at 5 o'clock in the morning. Our clock number is 424.

Very truly,

C. D. Rush

July 22nd, 1916.

The National District Telegraph Co.,
44 East 23rd Street,
New York.

Gentlemen:-

Can you not instruct your man when they come up here on the occasion no signals are run in, to ring the front door bell on the terrace, rather than the back door bell on 155th Street ? When the back door bell is rung it wakes up and consequently annoys the family living in the rear of the building.

When you have any more cards printed, please leave off Mr. Ruch's name.

Very truly yours,

Curator.

Office of the Manager.

Dear Sir:-

I am returning two slips, and the cards which accompanied them regarding your report of our watchman's signals for July 9th and 10th. The first of these memorandum charges came with yesterday's report, the other with to-day's. We have been much perplexed lately by the "irregularities" of our watchman's report by your office. As you know we have, in addition to your system, our own clock system which preceded the present installation, and which we still continue to use. Repeatedly our watchman has declared that he had rung up at the times your office has reported that you failed to receive his ring, and as our records here would and did show that he had rung our clock, we have had occasion to wonder the reason for your not having received his ring an the same hour.

On the evening of June 9th I happened to be present in the building at 8 o'clock, and distinctly heard our watchman ring up at that time. Your slip states that his signal was not turned in. I overheard the telephone conversation your office held with our watchman, and the report he made at the time to them was not that given on your slip - "clock slow", but that he had already rund and would do so again. Later on the same night your man reported that he failed to receive the signal at 1.15, although our watchman declared that he had rung up at one o'clock as your form 23A shows.

This is not the first time that aberrations on the part of your watchmen at headquarters have taken place, and while

we are willing to admit that our watchmen may and does occasionally make mistakes, we feel that with the present conditions the dependence to be placed upon either is less that it should be. We should like some explanation from you regarding the two incidents on July 9th. If you desire to have your representative call, kindly telephone before hand asking for me.

Yours very truly,

Secretary.

New York City
Dec. 8th, 1917

The American Numismatic Society,
West 156th St. bet. Broadway & Riverside Dr.,
New York City.

Gentlemen:-

A number of our subscribers throughout the country have requested that we send them their watchman's reports at the end of each week, instead of daily as at present, but before taking any action to comply with this request we addressed a letter to the New York Fire Insurance Exchange asking to be advised if a weekly or semi-weekly delivery would be satisfactory to them and have since received their approval.

With your approval, we propose to mail reports of your watchman's signals semi-weekly, viz: on Mondays and Fridays, except in the case of a delinquent watchman or other unusual happening, in which event the report will be forwarded immediately as heretofore.

If, therefore, this proposed change is agreeable to you, we would request, that you kindly advise us by signing and returning the attached memorandum.

Yours very truly,

Dear Sir:-

I have your notification of our watchman's delinquency on the night of April 23rd and 24th. I note your report states that he said he had rung up on time but that his ring had not been received. Our punch clock here shows that he has rung at the missing hour, and as he is usually consistent in ringing both clocks if he rings either, I believe that this must be one of the cases in which either the signal is defective or your office at fault.

Yours very truly,

Secretary.

Dear Sir:-

I have your communication stating that our watchman failed to send in the signal at 3 A. M. on May 9th. I am returning the card for that evening. You will notice that the entry has been altered.

Our watchman's clock here in the building shows that the signal here was registered at the proper time, and this our watchman claims to tie with the signal to your office as well. Furthermore he states that your man also called claiming not to have received the eight o'clock signal of which no mention is made in your report to us. You will also notice that there is no filling in of "The charge for this service is". This was also true of the last report of the delinquency concerning which I wrote you on April 27th. I should appreciate having some statement from you in regard to this.

Yours very truly,

Secretary.

New York City.

Dear Sir;

With further reference to your letter of the 11th inst., relative to the 2 o'clock round on night of May 8th and 9th, would respectfully advise that I have made a careful investigation of this and find that the 2 o'clock round was not received until 2.29 as shown on our card. These figures were gone over for the purpose of making same clear as same were somewhat blurred.

Regarding the 8 p.m. round, would advise that this was a doubtful signal received and for the mutual protection of both the Numismatic Society and the National District, same was investigated.

Hoping this explanation is satisfactory, I am

Very truly yours,

JPG/S

May 24th, 1918.

Mr. J. J. Kelly, District Superintendent,
National District Telegraph Company,
44 East 23rd Street,
New York.

Dear Sir:-

Referring to your letter of the 16th regarding the delinquency of our watchman on the night of May 8th and 9th.

I am very much interested in endeavoring to clear up the discrepancies in the report for this night. I note that a "doubtful" signal was received at the 8 P. M. round. Please tell me just what you mean by this, and how you would account for it. Would or could the same condition apply with the 2 P. M. discrepancy? Our watchman's clock certainly shows that it was rung up promptly at 2 o'clock - is there any other signal which could have been confused with ours, and how do you account for a ring from our place at 3.29, nearly a half hour after our watchman states that he turned in the signal. Was this signal received before or after your messenger reached the building? I have avoided taking this up with our watchman until until I have had word from you in order that I might have fewer complications.

Yours very truly,

Secretary.

New York City

Dear Sirs:

I beg to acknowledge the receipt of your bill for services for one year ending January 31, 1921.

May I inform you that I have never received an acknowledgment of our letter sent in December, informing you that the contract under which your Company protects our building will not be renewed on its termination.

I am,

Very truly yours,

Secretary.

Subject: Substitution for service of the National District Telegraph Co. Present service ending January 1871

Conversation February 4, 1870, between Messrs. Dement, Dailly and Reed.

Inside watchmen of Reynolds, Whitewashis and Indian(?) Avenue to be connected with outside watchmen.

Outside men at certain periods process a hidden button on outside of the different buildings that rings a bell on the inside; inside men to answer by pressing a button and ringing a feeble bell or buzzer on outside building. Outside men to report same performance at other buildings.

(Note:- This should be so arranged that the signal is repeated for check up the next day)

Burglary alarm. Fire connecting each building and outside man at his station with loud bell or gong so that knowledge of trouble can be given instantly to all the other watchmen.

(Note:-Telephones may be better than simply bells, although an emergency bell should be kept, in case watchman is unable or has not time to telephone)

Bell from each building to station of outside man to answer outside man to any special building without needlessly alarming other watchmen.

(Note:-Telephones may be of service here as well)

Dear Sirs:

I beg to enclose herewith a copy of the letter sent you under date of December 8th. You would presumably have filed it under the Hispanic Society of America, and thus account for your being unable to locate it. Kindly advise me, if this is not the case, if you did not receive it.

Very truly yours,

Secretary.

(Enclosure)

March 17th, 1920

American District Telegraph Co.
44 East 23rd Street
New York City

Gentlemen:-

This is to inform you that boging to-night, March 17th, the first signal from our nightwatchman, in our Museum at 617 West 155th St. will be given at eight (8) o-clock P. M. The signals will be given hourly thereafter until Five (5) o-clock A. M. at which hour the watchman goes off duty.

The reason for this change is that we are changing night-watchmen, W. S. Youmans taking the place of Hubert O'Donnell.

Very truly,

Assistant to Curator

January 21st, 1921.

National District Telegraph Company,
44 East 23rd Street,
New York.

Gentlemen:-

As our contract for your services has expired in accordance with the notification given you in our letter of December 8th, 1919, we desire that you remove your apparatus at the earliest possible date, and also wish to notify you that beginning Monday, January 24th, our night watchman will discontinue ringing your alarm.

Very truly yours,

President.

FORM 9

NATIONAL DISTRICT TELEGRAPH COMPANY

Boxes/Outs to be set on Stone Posts ..... and the wire connections necessary to transmit signals to the Contractor's Central Station, and will subject to the terms and conditions hereof, until the termination of this contract, maintain in good working order and operate such system with the understanding that the entire system and all devices shall remain the sole property of the Contractor.

The Contractor agrees, on any failure or neglect of the watchman to signal the Central Station hourly, commencing at six o'clock P. M. and ending at six o'clock A. M. within fifteen minutes after the time or times stated by the Subscriber in writing that such signals shall be sent, to send its roundsman, at a cost to the Subscriber of fifty cents for each trip, to the Subscriber's premises to ascertain the cause of such failure or neglect, and in case of accident to or disability of the watchman to perform his duties, to hold a watchman on the premises temporarily as may seem necessary, at a cost to the Subscriber of forty cents per hour, and to furnish the Subscriber daily a report of any failure to signal and watchman's excuse therefor for the previous night. The Contractor agrees to render free hourly service on Sundays and holidays as per conventional hours of this date.

The Subscriber hereby agrees to pay the Contractor, its agents or assigns, ~~the sum of~~ ..... Dollars ($.....)
~~upon the completion of said installation, and to pay in addition~~ as rent for operating said service the sum of One Hundred Seventy-two and 00-100 ..... Dollars ($172.00)
per annum, annually in advance for the period of five years from the date such system is ~~installed and~~ operative under this contract, and thereafter shall pay the said sum per annum annually in advance until the termination of the contract which is terminable not less than thirty days after written notice of desire to terminate is given by either party to the other at any time after the expiration of the five year period.

The contract may also be cancelled, without previous notice, at the option of the Contractor, in case the Contractor's Central Office or plant is destroyed by fire or other catastrophe, or so substantially damaged that it is impracticable to continue the service.

The Subscriber hereby authorizes and empowers said Contractor, its agents or assigns, to ~~install~~ operate the system in said premises and to make inspections, tests, and repairs to it, and further, to make any alterations requested by the Subscriber, after installation, at the cost of the Subscriber, and to remove said apparatus and connections upon the termination of this agreement by lapse of time, default in the payment of any installment of rent, or otherwise, but the removal of the apparatus and devices aforesaid shall not be held to constitute a waiver of the rights of said Contractor to collect any rentals or charges which may have accrued under this agreement.

It is mutually agreed that the work of installation shall be performed in full day turn only (Sundays and holidays excepted) unless the Subscriber directs otherwise, in which case the Subscriber hereby agrees to pay the Contractor any resulting increased cost for installation. The Contractor assumes no liability for delays from strikes or other causes. This contract to be effective February 1 st, 1921.

It is agreed by and between the parties hereto that the Contractor is not an insurer, and that the rates hereinbefore named are based solely on the value of the service in the operation of the system described, and in case of failure to perform such service and a resulting loss its liability hereunder shall be limited to and fixed at the sum of fifty dollars as liquidated damages, and not as a penalty, and this liability shall be exclusive.

This contract is not binding unless approved in writing by an executive officer of the Company described above as the Contractor.

There are no verbal understandings changing or modifying any of the terms of this contract. This contract supersedes one made between the Contractor and The ... Automatic Society for ... 3 PA boxes and 1 PC box, dated 1/4/16.

Approved:

AMERICAN
GEOGRAPHICAL SOCIETY

OFFICE OF THE DIRECTOR

BROADWAY AT 156th STREET
NEW YORK

February 4, 1921

Mr. John Reilly
American Numismatic Society
Broadway at 155th Street
New York City

My dear Mr. Reilly:

At Dr. Bowman's request I enclose herewith the carbon copy of a letter to the National District Telegraph Company. Dr. Bowman will be absent from the office tomorrow but will get into touch with you on Monday regarding the matter.

Very truly yours,

W. A. Rossiter

Secretary to the Director.

February 4, 1921

National District Telegraph Company
44 East 23rd Street
New York City

Gentlemen:

Referring to your last letter I beg to advise you that our contract calls for five years service ending early in 1921. Your assumption that an additional year is to run is quite contrary to the language of the contract and this is formal notice to you that we wish the service discontinued as of February 8, 1921.

I will refrain at this time from giving my opinion of your proposal to oblige us to extend the service for one year.

Very truly yours,

Director.

FORM 9

NATIONAL DISTRICT TELEGRAPH COMPANY

44 East 23rd Street, New York City, N.Y.
February 11th, 1921.

NEWCOMB CARLTON, PRESIDENT

FILE

American Geographical Society,
Broadway at 156th Street,
New York City, New York.

Attention of Isaiah Bowman, Director.

Gentlemen:

I beg to acknowledge receipt of your favor of the tenth inst.

I find, in our files, that you did serve us a letter of discontinuance dated December 8th, 1919, served by the Hispanic Society of America, the American Geographical Society and the American Numismatic Society and this letter I find was acknowledged under date of December 10th, 1920 by my predecessor Mr. A. J. Sovereign.

This places you within your rights to discontinue the Service under the terms of the existing Agreement and in this connection I refer you to your letter of February 7th, 1921, desiring to discontinue the Service as of February 8th, 1921, to which we agree.

I am sorry that you are unable to execute Agreements to continue the Service at our present standard rates and exceedingly sorry to lose you as a valuable Subscriber; however I hope you will reconsider your decision and go into the matter further with our Mr. Cruise, who will hand you this letter.

Yours truly,

[illegible] Telegraph Company.

WLM:CFB

AMERICAN GEOGRAPHICAL SOCIETY

OFFICE OF THE DIRECTOR

BROADWAY AT 156TH STREET

NEW YORK

February 14th 1921.

John Riley, Esq.,
The American Numismatic Society,
Broadway at 155th Street,
New York City.

Dear Mr. Riley:

Mr. Cruise has just delivered to me the attached letter which bears the date of February 11th 1921, and as you see puts upon the contract the same interpretation that we had placed upon it.

As I told you the other day, this, as far as the Geographical Society is concerned, was an indispensable first step. I am now ready to discuss with your representatives and with Mr. Huntington the question of co-operation in continuing the service of the National District Telephone Company provided that they can demonstrate improvements in that service.

One of the points that we ought to keep in mind in making new arrangements is that the new contract should be written in a different form from the old one, and I should like to see it limited to one year with the privilege of discontinuing it on a month's notice. This will ensure us prompt and efficient attention of complaints regarding any delinquencies that might occur in the service of the company.

I am dictating this letter in the presence of Mr. Cruise in order that both you and he may understand precisely the position of this Society. I am also sending a carbon copy of it to Mr. Huntington for his information.

Sincerely yours,

Isaiah Bowman

May 20th, 1921.

National District Telegraph Company,
44 East 23rd Street,
New York.

Attention of Mr. G. W. Cruise.

My dear Mr. Cruise:

We have just had a final conference about the new contract with your Company, and have decided not to take it up. Will you therefore see that your boxes inside and outside our building are removed as soon as possible.

You made some reference to obligations on our part due to the presence of these boxes after the expiration of our five year agreement. I would respectfully call your attention to our notice sent December 8th, 1919, jointly with the Hispanic Society and the Geographical Society, a second copy of which was mailed at the request of your office on February 21st, 1920.

I would also call your attention to our letter of January 21st, 1921, requesting you to remove your boxes at the expiration of our contract. I note that there was an error in that letter of about one month, which should have read February 25th instead of January 24th, since which date we have had no contract with you, and are under no obligations whatsoever.

In further confirmation of this statement I would call your attention to your letter of February 11th, 1921, to the American Geographical Society in which you state that you have received the joint notice of December 8th, 1919, and that you recognize the rights for the five year term of the Geographical Society which are identical with ours.

Regretting that we can not make further use of your service, I am,

Yours very truly,

President.

June 2nd, 1921

National District Telegraph Company
44 East 23rd Street, New York

Gentlemen:

In response to your letter of May 20th to have removed your boxes inside and outside our buildings. This has not yet been done and we shall appreciate it if you would kindly give the matter your attention as soon as possible.

Very truly yours,

Curator

WATCHMAN
The MAN
The BOX
The KEY.
A.D.T.
SYSTEM

Central Station Service

ONE OF OUR CENTRAL STATIONS

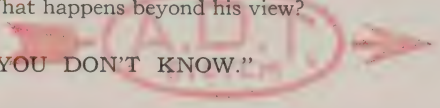
While you are away.

At the end of a business day you leave your premises to the care of a policeman.

The only attention your property gets is a hurried glance by the policeman whenever he happens to pass along your way.

What is going on in the meantime?

What happens beyond his view?



"YOU DON'T KNOW."

The fact is you are consigning your property to the care of a chance passerby.

Aren't you INTERESTED in what you OWN?

You are not indifferent!

Do you know—

That the thousand and one causes of fire operate without discovery or prevention?

You are inconsistent.

You work all day to build up a good business.

You go away at night and let the business take care of itself.

You rest while your property is exposed to danger of fire and robbery.

Why so much attention in the day time, and so little attention at night?

Are things any safer at night?

Is your property "immune"?

Is your business stronger than its weakest point?

Can you afford to take chances?

Unless protected at night you are careless.

Carelessness! Neglect! The annual fire loss is a quarter of a billion dollars.

The odds are two to one against you.

You are not at your place of business one-third of the time.

At week-ends, holidays, Saturdays and Sundays you are not on the premises for three days and nights at a time.

Things happen just the same, whether you are there or not.

Your stock, machinery, equipment, etc., are perishable. Your existing and continued business revolves about them!

It would take TIME and money to replace them.

Would you like "to start all over again?"

Probably your competitors would benefit by your fire.

Business future hinges upon ability to serve.

The chances are you will not be there when trouble comes.

What protection have you?

Fully protected by insurance?

Of course you have insurance, but you have never had a fire—so far.

If so, you would know that insurance does not cover your loss.

At best it is only partial.

"Prestige," "Reputation," "Prompt Delivery" and other valuable business assets are not covered by insurance.

Insurance will not bring back the money lost on orders you are unable to fill.

A going concern MAKES money, while an idle concern TAKES money.

Interruptions by fire mean disorganized business machinery. That is direct financial loss.

The loss in business efficiency is not covered by insurance.

Money will not restore the efficiency. It takes TIME and effort to do so.

Insurance does not pay your loss.

Your place is watched at night?

As an extra precaution you decided to have a Watchman to look after things while you are away.

You leave your whole plant in his care most of the hours of each day.

He is your sole representative, and acts for you in all emergencies.

When you entrust so much of importance to any one he must be a good man.

Do you think he is as good a man as your day Superintendent? Do you pay him as well?

What would happen if he were injured, or ill?

Don't you suppose he might need help?

What did you instruct him to do to protect your interests?

Do you think he is "on the job?"

You check your watchman with a clock?

What good does that do?

He might easily "beat the clock," but we don't think he need do so.

Why should he when you are too busy to look over the records to see what they show?

Possibly "somebody" has been told to look over the records each day.

Is it safe to leave all your property to "somebody's" care?

WHEN does the clock tell you what the Watchman is doing?

If it isn't important that he work to-night, why have him at all?

What good is a clock to the Watchman?

It doesn't help him if he is sick or in trouble.

It doesn't mean immediate discovery if he is negligent to-night.

It puts off everything until to-morrow.

You never had a fire?

The unexpected often happens and your turn may come any time.

A careless employe, or some new line you have taken on may be a fire hazard that you have failed to recognize.

But even assuming that things are all right in your own place, remember the man next door.

You can't make him keep his place as clean as yours.

He may have a fire and endanger your property also.

If such a thing should happen when do you want to know about it?

To-night or to-morrow after the fire?

Don't blame your watchman.

If he fails in his duty it is partly your fault.

He may be honest, but nevertheless he is human.

If you are not interested enough in his work to know what he is doing you cannot expect him to care very much about it himself.

What you may think he is doing, and what he actually is doing are not necessarily the same thing.

Perhaps he knows better, or perhaps not.

You are the one who owns the property—you ought to be interested.

Have you any definite knowledge of what is going on in your place at night?

Unless you actually know what your Watchman is doing all of the time, and at any time,

You are not safe.

You have enough trouble in the day time!

You must rest at night to do business the next day.

Our business is "taking care of other peoples' troubles."

WE NEVER GO TO SLEEP.

WE ACT IN EMERGENCIES.

We can show you how you can REST when you leave your business with the best chance of finding your property ready for business the next morning, IF protected by our service.

We know "what is going on" all the time.

Where George is at 11:30 P. M., or at 3:15 A. M.

We are not detectives or magicians.

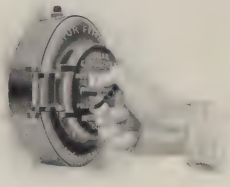
We don't go near your place while things are normal;

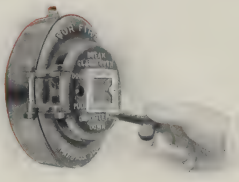
But when there is trouble we are there on the job.

To Send a Night Watch Signal

FIRST
INSERT KEY

SECOND
TURN KEY ONCE





THIRD
REMOVE KEY

Always report on Boxes at exact time and in order given in your schedule.

We watch your watchman.

We have a system of supervision that gets results.

It's a National system now because it has been a good system from the first.

Back of the system is an experienced and efficient organization and wire equipment.

A "broken wire" or a "ground on the line" don't stop us, not for a minute.

WE SELL SERVICE—It's a business that won't wait, so we use a "duplex" system of signaling.

We install signal boxes throughout your premises as required.

They are connected by private wires with our Central Station and its corps of Operators and Inspectors.

We are in constant touch with your Watchman. Tell him to patrol your premises in such a manner and at a certain time and your WORRIES end.

The building will be patrolled as you direct and that

Regardless of what happens to the watchman.

How the system works.

The Watchman inserts his key in our box on the top floor about the time directed to start his rounds, and as he turns his key we get his message in code over the wire.

It may read 4-2-5 on our central office tape, and our Operator, with your schedule before him, notes the time on the sheet as 6:03 P. M. This sheet shows that box 4-2-5 is on the fifth floor of your building, and that the man was due to report at 6 P. M., from this, his first box.

Then the Watchman walks across the floor, and downstairs to his next station, observing conditions on the way, and turns the key in his second box. Instantly we get his message which reads in code, 4-2-4, and we know that he is now in the southwest corner of the fourth floor.

He is patrolling the building in the proper manner, and on time at 6:07 P. M.

Thus we check him as he walks about his rounds each and every hour.

We always know just where he is.

When things go wrong.

Perhaps the Watchman is injured or sick; he fails to turn in his signal on time. Ten minutes pass and no report over the wire.

Our Operator knows the Watchman is overdue.

There is trouble at your place.

The Manager sends an Inspector to investigate.

The Inspector reports by 'phone to our Manager that your Watchman is sick.

Under instructions from our office, your Watchman is sent home and our Inspector takes his place for the remainder of the night.

There is no interruption to your protection.

There is nothing to worry about.

We are "ready to serve."

Your property is being watched "all the time."

Unless the matter is serious we do not bother you that night.

In the morning you will get a written report of any trouble.

Other things happen.

We find from our reports:

"Watching Suspicious Persons"
"Watchman Fell Downstairs"
"New Watchman; Not Instructed"
"Locked Out of Building"
"Watchman Not on Duty"
"Watchman Intoxicated"
"Looking after Fires"
"Watchman Gone Home"
"Watchman Asleep"
"Forgot the Time"
"Busy Outside"
"No Excuse"
"Too Busy"

and others we won't mention.

There are plenty of reasons WHY the watchman fails, but there is only one thing to do WHEN he fails;

So we act quickly, sending our runner to your premises on a motorcycle, if your property is not near us.

The point is, we know whenever he fails, and we investigate at once.

Prompt investigation gets at the real trouble before it is too late.

The chief duty of a watchman

Is to discover fire in its early stages.

So we provide a means for sending in a fire alarm that will always be ready and will not fail in time of need. In fact it is the same box the Watchman uses every hour and cannot be missed or out of order. Its mechanism and the connecting lines are tested every time he sends in his report signal.

In case of fire "break glass, pull down lever, and let go." This action sends in a special fire signal that indicates the exact floor and building where the fire is located.

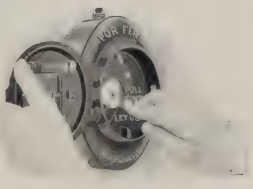
The Fire Department respond promptly to that alarm and go direct to your door.

In the meantime the watchman is busy fighting the fire.

To Send a Fire Alarm

FIRST
BREAK GLASS, OPEN DOOR

SECOND
PULL DOWN LEVER



THIRD
LET GO LEVER

Alarms are thus transmitted to the Central Office and Fire Department will respond.

We advise you about the fire at your home.

Our men are on the way to your place.

You get help when you need it most, and you get it quickly.

Don't you think the Fire Department would help some at such a time?

Seconds are worth more than dollars then, and you cannot afford to waste them.

Your Watchman does not leave the fire to go out of the building to the street corner to turn in an alarm, and to direct the Fire Department.

He doesn't have to look around for a box—he knows just where it is.

As soon as he pulls "our box" he starts to fight the fire.

In the meantime we are calling up your Superintendent, your Engineer, and any one you have designated on your "notification list." They are the men you count on, and now is the time you need them.

They won't waste time "getting down on the job" when we tell them your place is on fire.

The time saved in this way means money to you.

Some reasons why our service is best.

1. Our boxes, lines, etc., are not only under constant electrical test, but are also constantly tested by actual operation each and every time your watchman sends his signal.

2. Five thousand tests a year insure that the apparatus will not be out of order when needed. Any trouble that may develop is discovered and repaired immediately, not at the time of the fire.

3. Boxes are made for service, not for sale. Our reputation depends upon the continued satisfactory operation of these boxes.

4. We have an old and experienced organization behind our apparatus.
We are actually operating more interior fire alarm boxes than there are Municipal "street fire alarm boxes" in the United States.

5. We promptly send help WHERE you want it, WHEN you want it, no matter WHY you want it. Could any one do more?

6. We are responsible for the details. You are not bothered.
We sell service and you get the results.

7. The combination of the necessary "automatic" apparatus, and the essential "human" element make our system adaptable to all your needs. It is designed to produce results, any time, every time, and all the time.

The continuous use of all our apparatus guarantees its efficiency.

What do the underwriters say?

The answer is their label on all our apparatus, which means "approved."

Their engineers examine everything we use, and their inspectors test every installation we make.

Underwriters generally recognize the merits of the protection we offer by granting substantial reductions in the rate of premium whenever our service is installed.

This means they help you pay for the protection.

They believe it will mean less actual loss from fire to them.

They make a business of studying fire protection methods, and they prefer Central Office systems to all others.

See notes under Class D National Board Rules on Signaling Systems.

They are after results only.

Our system is under their constant observation.

They know what we are doing.

Is not their preference a good indication to you as to which service is the most effective?

They prefer the best system because it means money to them.

An added feature.
Safety to life—local gong alarm systems.

In case of fire prompt general alarm to employes and orderly exit to prevent loss of life is of important consideration to employers.

The State departments of labor require Local Gong Alarm Systems and fire drills in some places, particularly in loft and factory buildings.

To meet these laws and requirements we have designed apparatus so that the same fire alarm box operates a number of local gongs throughout the premises.

We are prepared to furnish this service in connection with our regular Night Watch and Fire Alarm Service for an additional charge, depending upon the cost of the equipment necessary to meet regulations.

Our systems are approved by all departments of labor and insurance inspection bureaus.

With our complete gong system one operation of the box lever produces three results.

1. Alarms your employes so that they may leave the building in an orderly manner.

2. Advises your fire brigade of the exact location of the fire.

3. Immediately calls the fire department direct to your premises.

Unless the above sequence of happenings is prompt, serious fires and loss of life result.

No panic or confusion!

Seconds are worth dollars when fire first starts.

Should your fire brigade fail to extinguish the fire, the City Fire Department is already on the way.

You take no chances.

Our charges.

We sell service on the rental plan.

We furnish all necessary equipment and maintain it at our own expense.

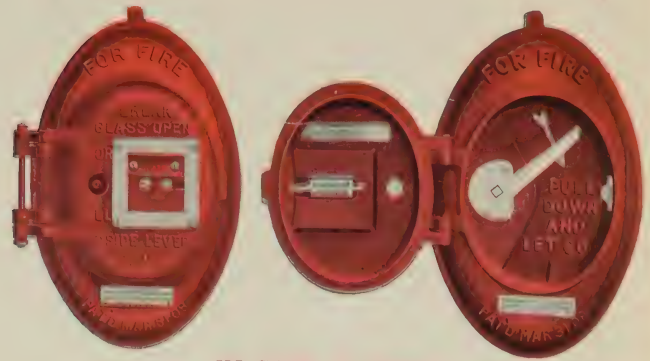
You are not bothered with any details and have no extras to pay for.

Your particular needs are the basis of our charges.

You pay in proportion to the services rendered.

A solicitor will gladly furnish an estimate for the proper protection of your property.

When shall he call?



IN CASE OF FIRE

We operate Central Station Service in hundreds of towns in the United States

Attention Mr. W. T. Moe, Secretary

Gentlemen:

Relative to the conversation the writer had with you last Friday, we wish to inform you that, as requested, we will let the quotation of the contract for service at the above premises rest, until we are notified that it is desired by you to check the watchman now patrolling the premises.

With this in mind, we are attaching hereto contract form in duplicate so that when the present plan is abandoned we will be given sample time in which to complete arrangements and start the service.

Trusting we may have the pleasure of serving you in the near future, beg to remain

Very truly yours,
NATIONAL DISTRICT TELEGRAPH COMPANY

Form 518-C

CENTRAL STATION
NIGHT WATCHMAN'S TOUR AND MANUAL FIRE ALARM SIGNAL SERVICE

PROTECTION A.D.T. SERVICES

Memorandum of Agreement, Made this ..... day of ....., 19....., between the NATIONAL DISTRICT TELEGRAPH COMPANY, hereinafter called the "Contractor", and ..... hereinafter called the "Subscriber";

Witnesseth:

That for the consideration hereinafter named, the Contractor agrees to install or cause to be installed, in the premises of the Subscriber at Broadway & 156th Street, in the City of New York State of New York, its Night Watch and Fire Alarm Signal System, consisting of Thirteen (13) Compulsory Tour Night Watch Units, and Three (3) Manual Fire Alarm Boxes, and the wire connections necessary to transmit signals from the Master Night Watch and the Fire Alarm Boxes to the Contractor's Central Station, and will, subject to the terms and conditions hereof, until the termination of this contract, maintain in good working order and operate such system with the understanding that the entire system and all devices shall remain the sole property of the Contractor. The Subscriber agrees to pay Eight Dollars and Fifty Cents for each register that the Contractor may be required to replace due to loss or damage on the part of the Subscriber's agents or employees.

The Contractor agrees, on any failure or neglect of the Subscriber's watchman to signal the Central Station hourly, commencing at six o'clock P. M., and ending at six o'clock A. M., within fifteen minutes after the time or times stated by the Subscriber in writing that such signals shall be sent, to telephone or send its roundsman, at a cost to the Subscriber of fifty cents for each trip, to the Subscriber's premises to ascertain the cause of such failure or neglect, and in case of accident to or disability of the watchman to perform his duties, to hold a watchman on the premises temporarily as may seem necessary, at a cost to the Subscriber of forty cents per hour, and to furnish the Subscriber at such intervals as he may request a report of any failure to signal and the watchman's excuse therefore. Contractor agrees to render without additional charge, hourly service on Sundays and such holidays as are conventional as of this date.

The Subscriber hereby agrees to pay the Contractor, its agents or assigns, the sum of ..... Dollars ($.....) upon completion of said installation, and to pay in addition as rent for operating said service the sum of Three Hundred Thirty-Four and 00/100---------- Dollars ($ 334.00) per annum, annually in advance, for the period of five years from the date such system is installed and operative under this contract, and thereafter shall pay the said sum per annum annually in advance until the termination of the contract, which is terminable not less than thirty days after written notice of desire to terminate is given by either party to the other at any time after the expiration of the five-year period.

The contract may also be cancelled, without previous notice at the option of the Contractor, in case the Contractor's Central Office or plant is destroyed by fire or other catastrophe, or so substantially damaged that it is impracticable to continue the service.

The Subscriber hereby authorizes and empowers said Contractor, its agents or assigns, to install the system in said premises and to make inspections, tests, and repairs to it, and further, to make any alterations requested by the Subscriber, after installation, at the cost of the Subscriber, and to remove said apparatus and connections upon the termination of this agreement by lapse of time, default in the payment of any installment of rent, or otherwise, but the removal of the apparatus and devices aforesaid shall not be held to constitute a waiver of the rights of said Contractor to collect any rentals or charges which may have accrued under this agreement.

It is mutually agreed that the work of installation shall be performed in full day turn only (Sundays and holidays excepted) unless the Subscriber directs otherwise, in which case the Subscriber hereby agrees to pay the Contractor any resulting increased cost for installation. The Contractor assumes no liability for delays from strikes or other causes.

It is agreed by and between the parties hereto that the Contractor is not an insurer, and that the rates hereinbefore named are based solely on the value of the service in the operation of the system described, and in case of failure to perform such service and a resulting loss its liability hereunder shall be limited to and fixed at the sum of fifty dollars as liquidated damages, and not as a penalty, and this liability shall be exclusive.

This agreement shall not be assignable by the Subscriber except upon the written consent of the Contractor first being obtained.

This contract is not binding unless approved in writing by an executive officer of the Company described above as the Contractor.

There are no verbal understandings, changing or modifying any of the terms of this contract.

Approved:
NATIONAL DISTRICT TELEGRAPH COMPANY

NATIONAL DISTRICT TELEGRAPH COMPANY By .....
Contractor.

By ..... Agent.
